

A bibliographical study of the *Revue de la Régulation*

Adrien ROUGIER

8th September 2022

1) Authors and editorial board

2) Bibliographical references

1.1. Clustering journals based on their common authors

- 62 economics journals published in French
- For each couple of journals:

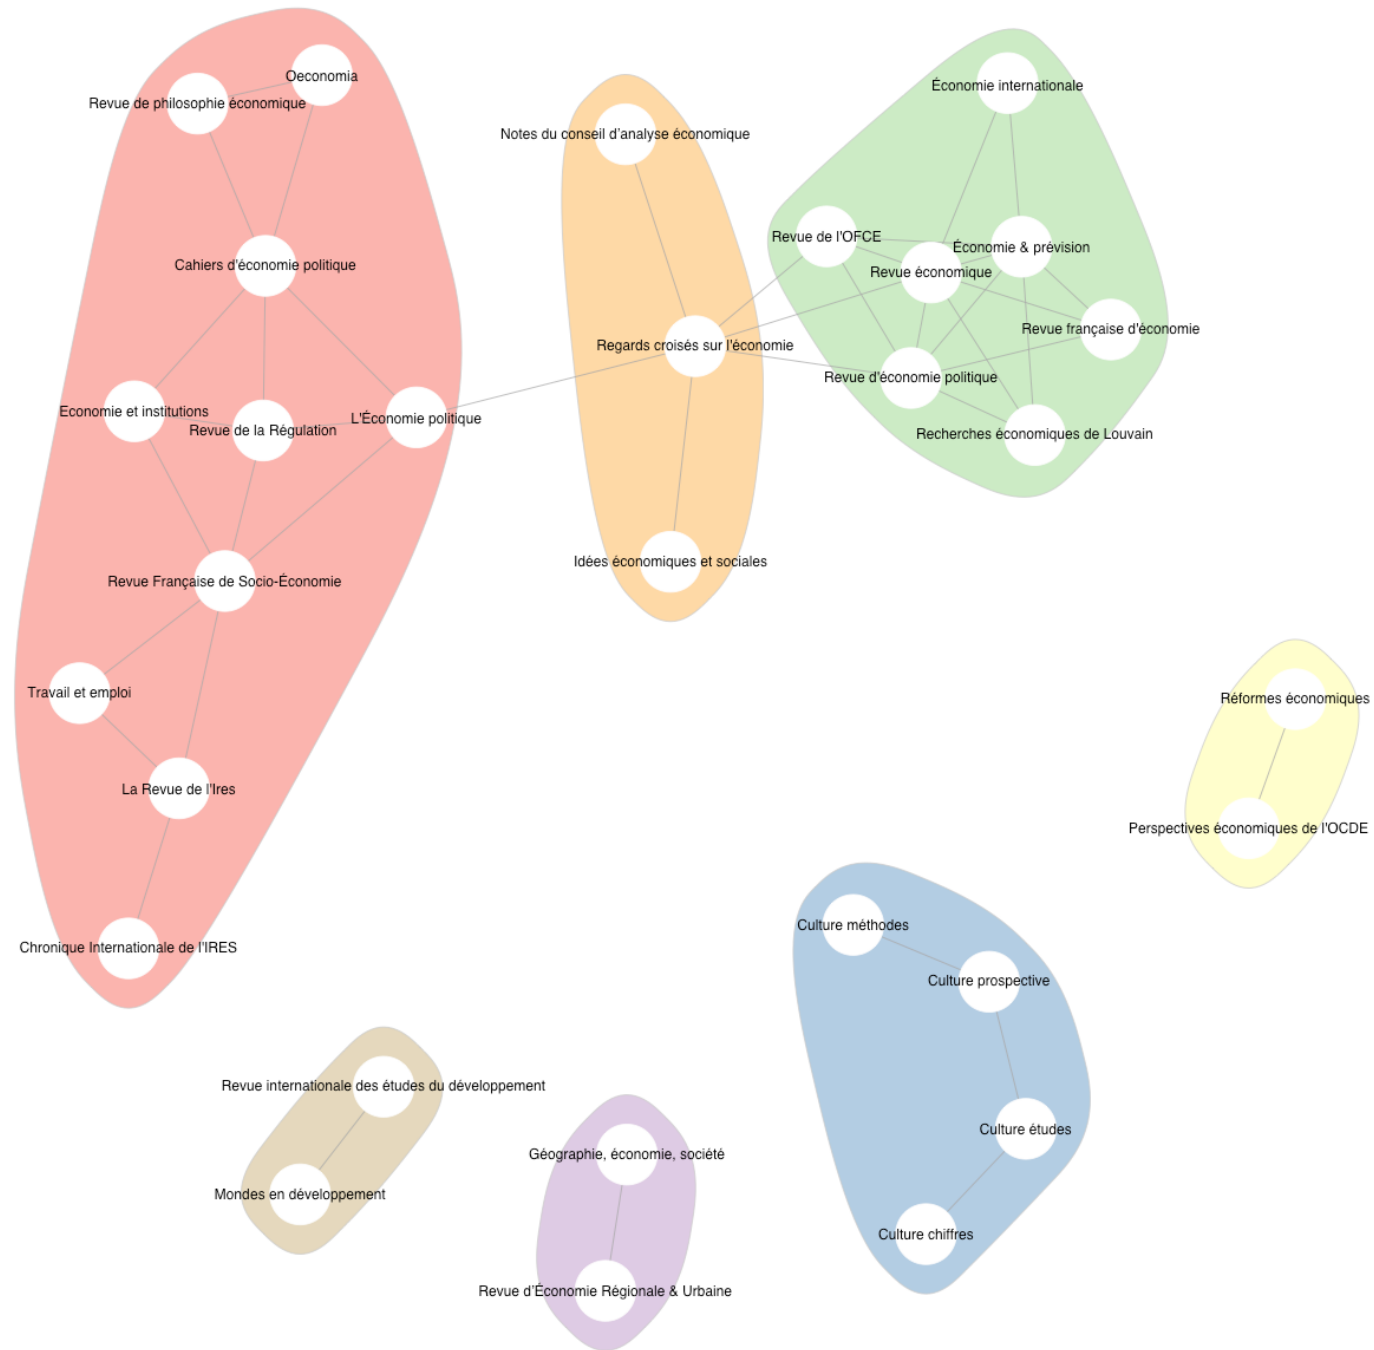

N : the number of authors the two have in common

P : the number of authors the two do not have in common (who published either in one or the other)

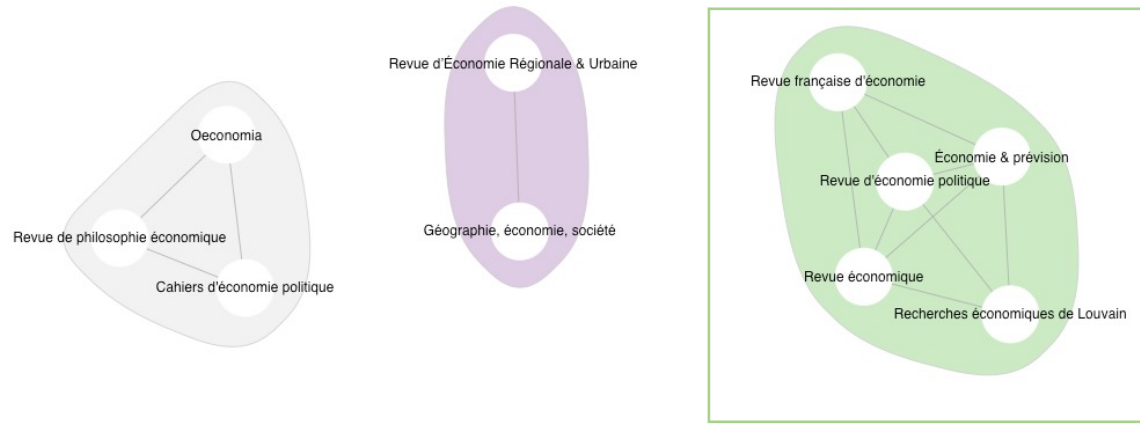

W : the intensity of the link between the two journals (N/P).

1.1. Clustering journals based on their common authors

Couple of journals		N (authors in common)	P (authors not in common)	$W = N/P$ (Intensity of the link)
<i>Revue de la Régulation</i>	<i>Revue Française de Socio-Économie</i>	75	897	0.0836120401
...	...	...	...	...
<i>Revue de la Régulation</i>	<i>Notes du conseil d'analyse économique</i>	1	602	0.0016611296

Network of French economics journals with $w > 0,046$

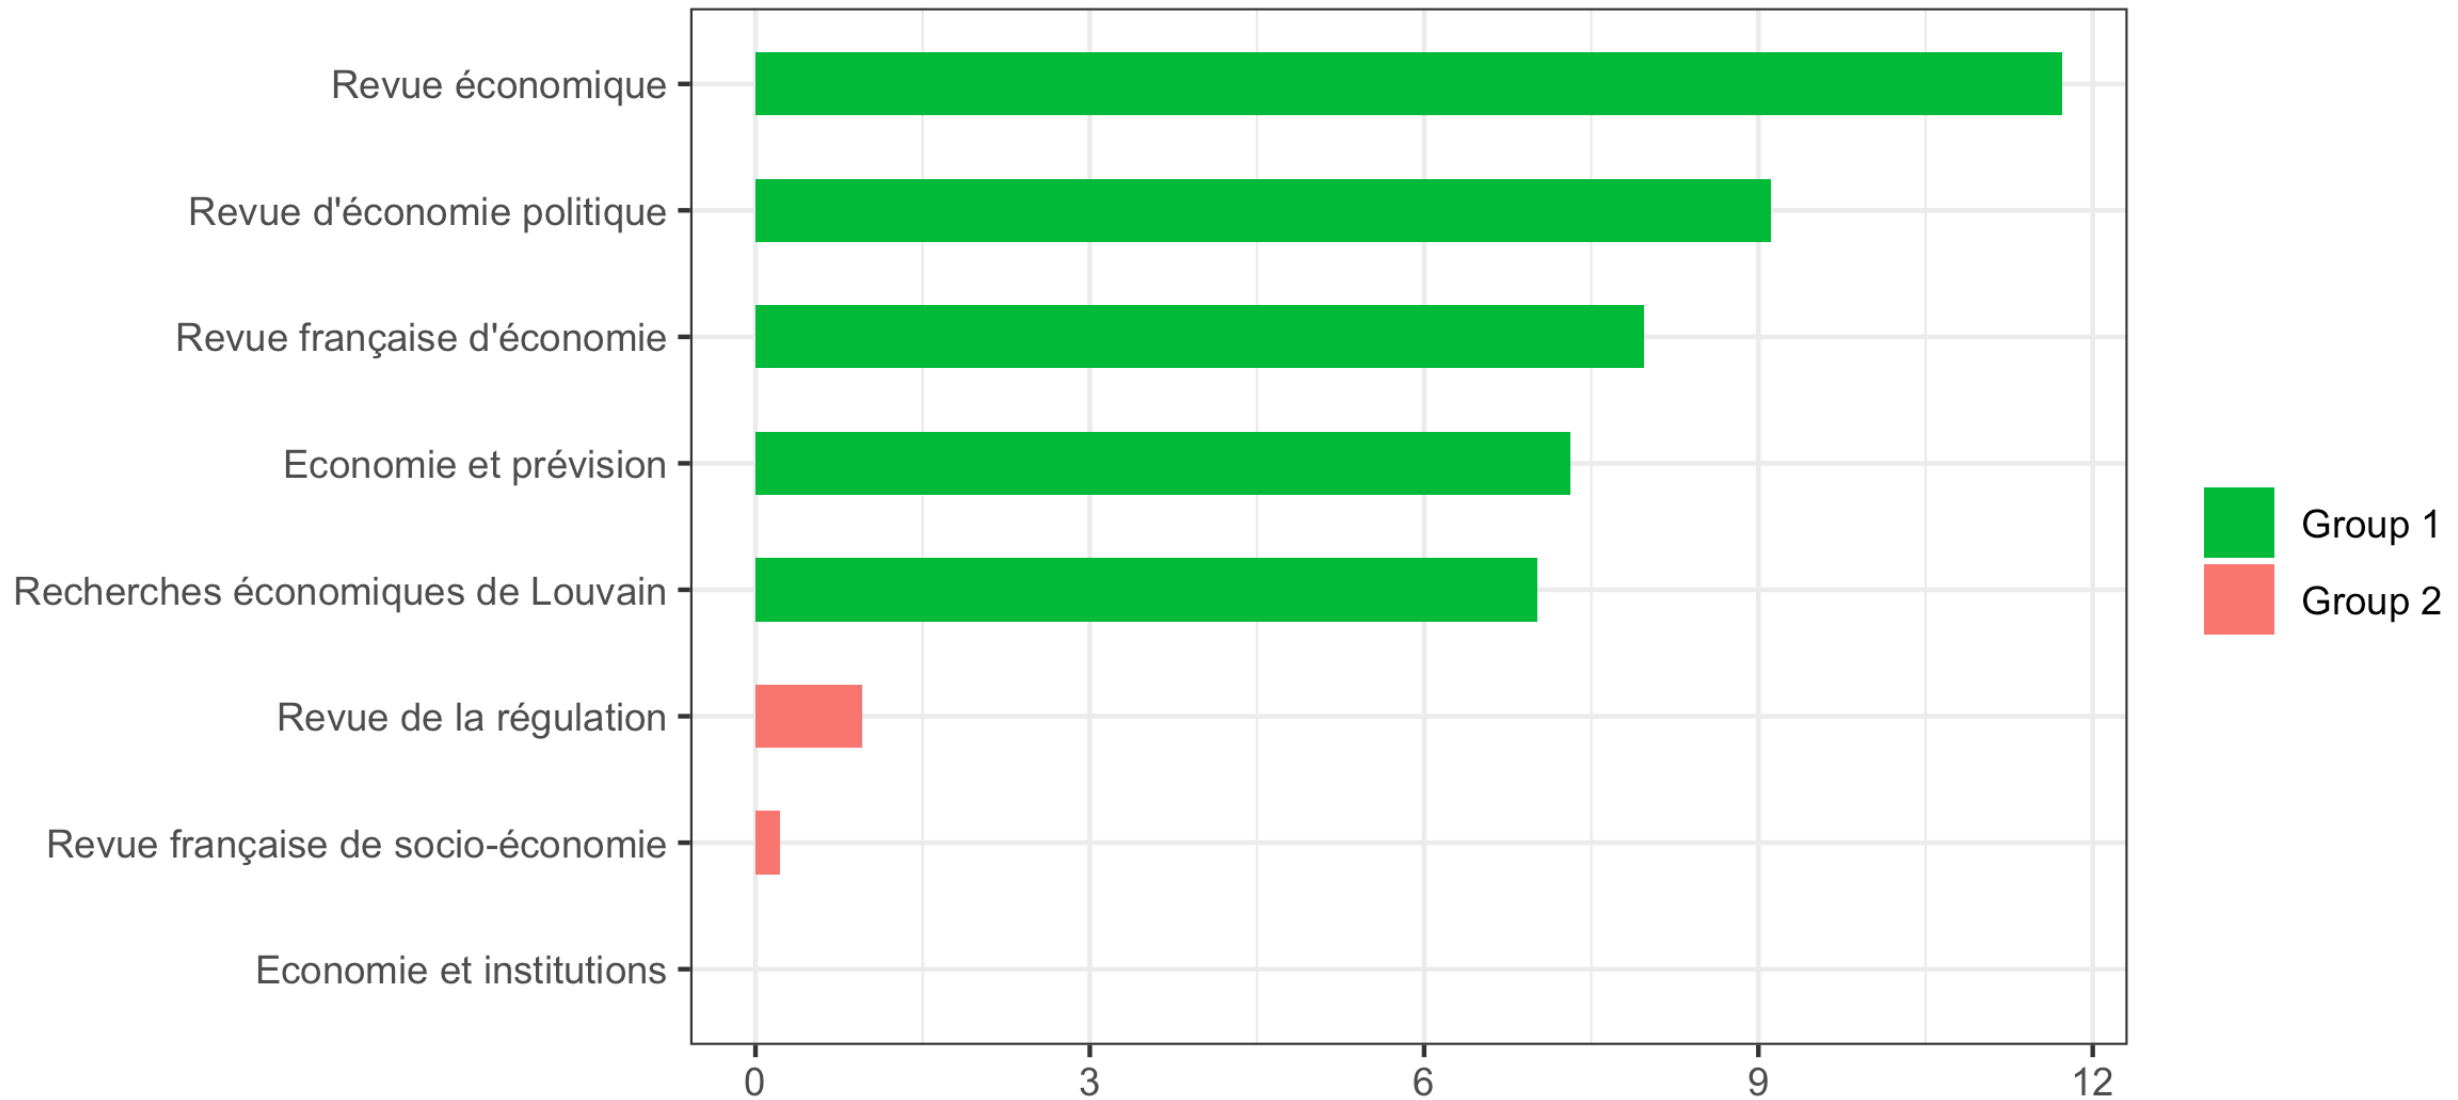

Group 1

Group 2

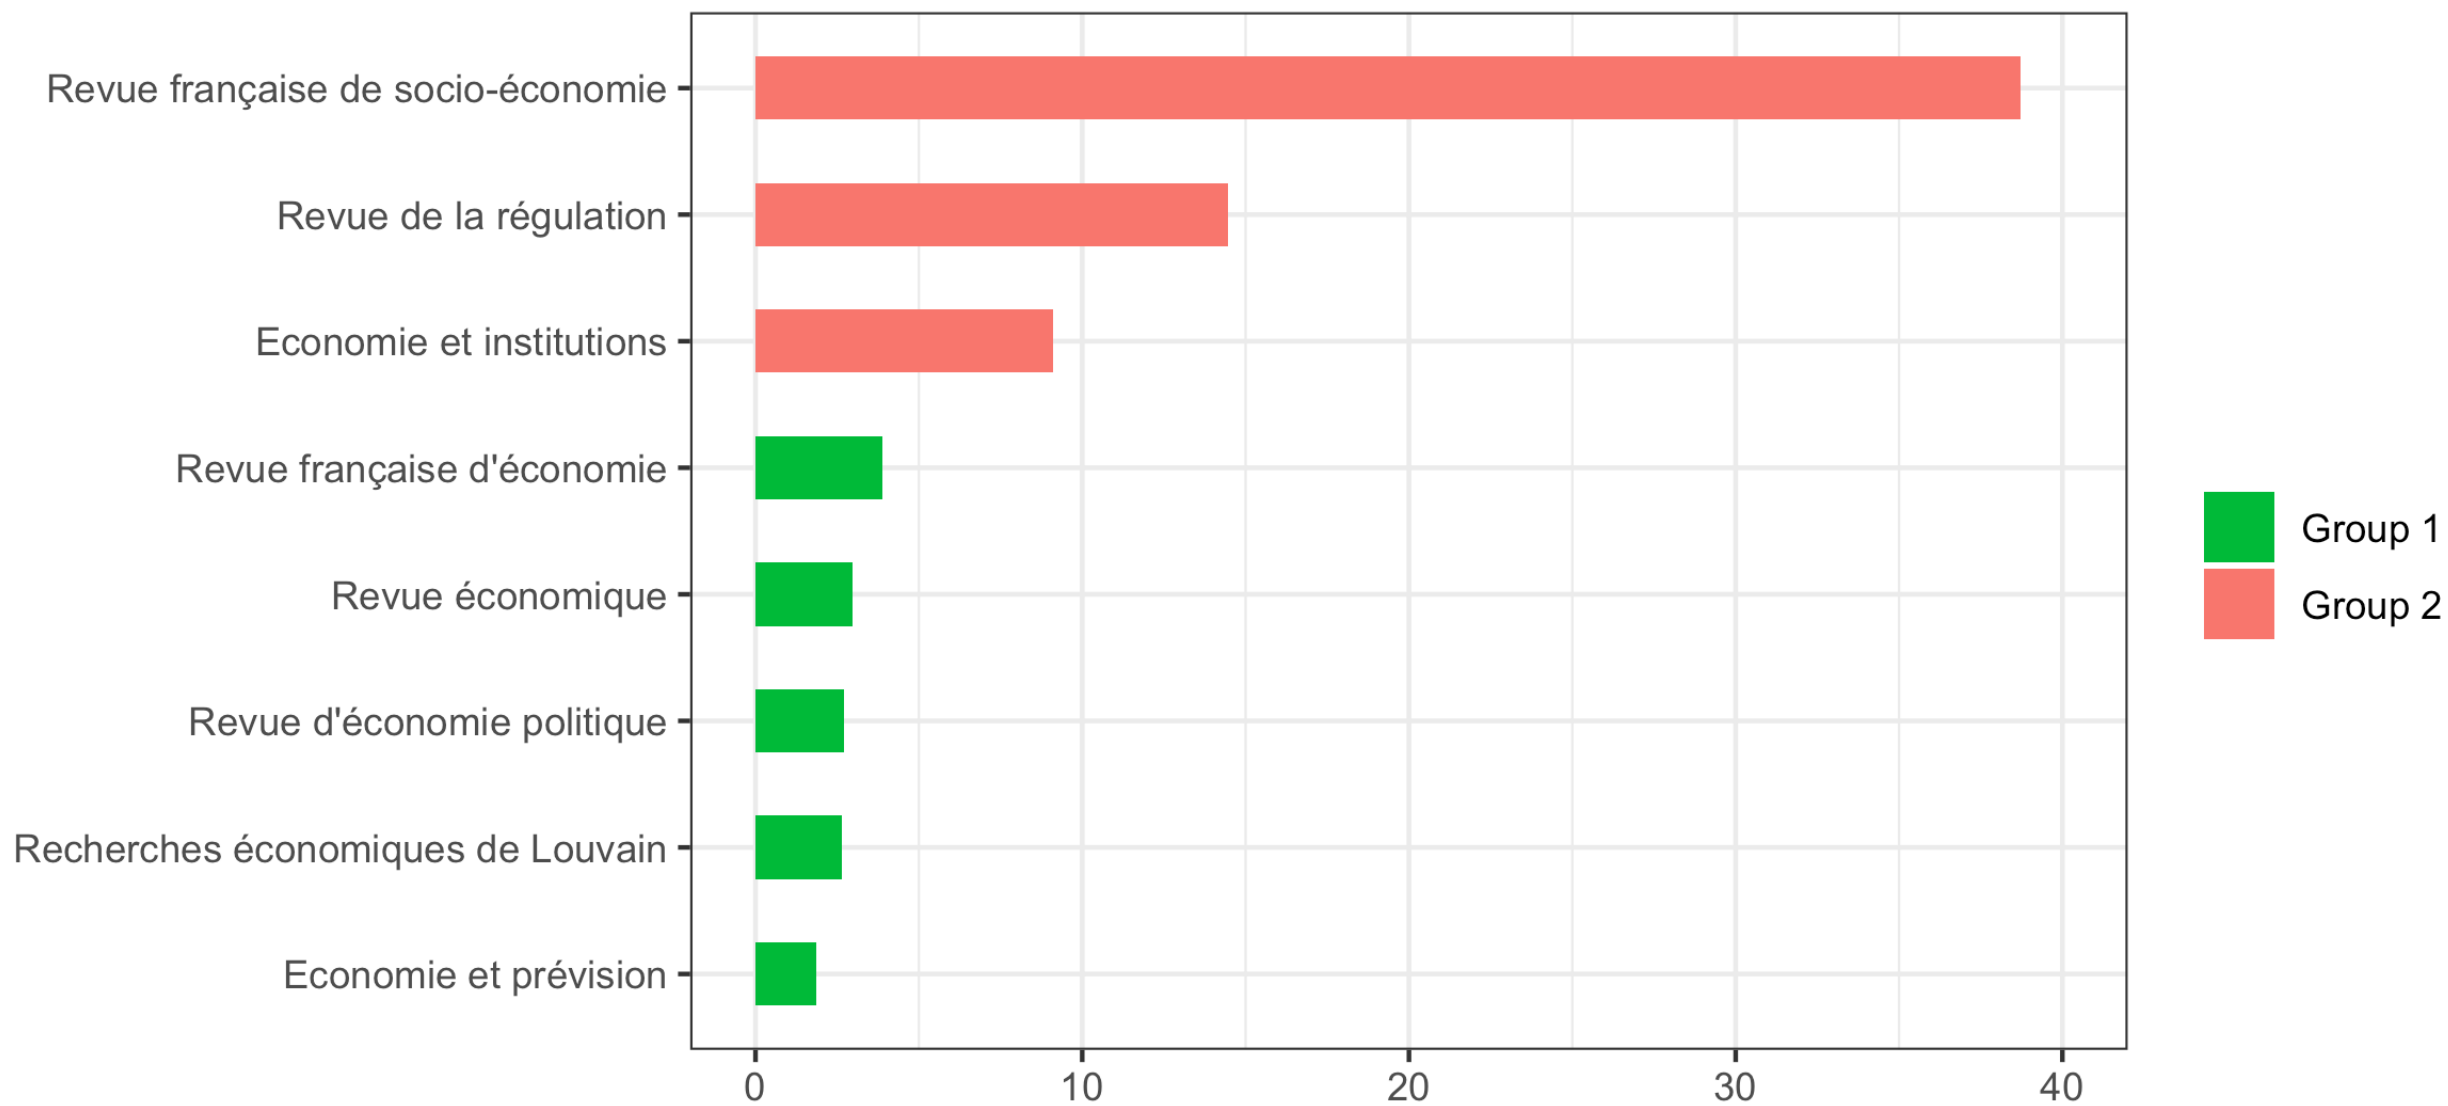

Network of French economics journals with $w > 0,061$

1.2. Top mainstream versus French social sciences

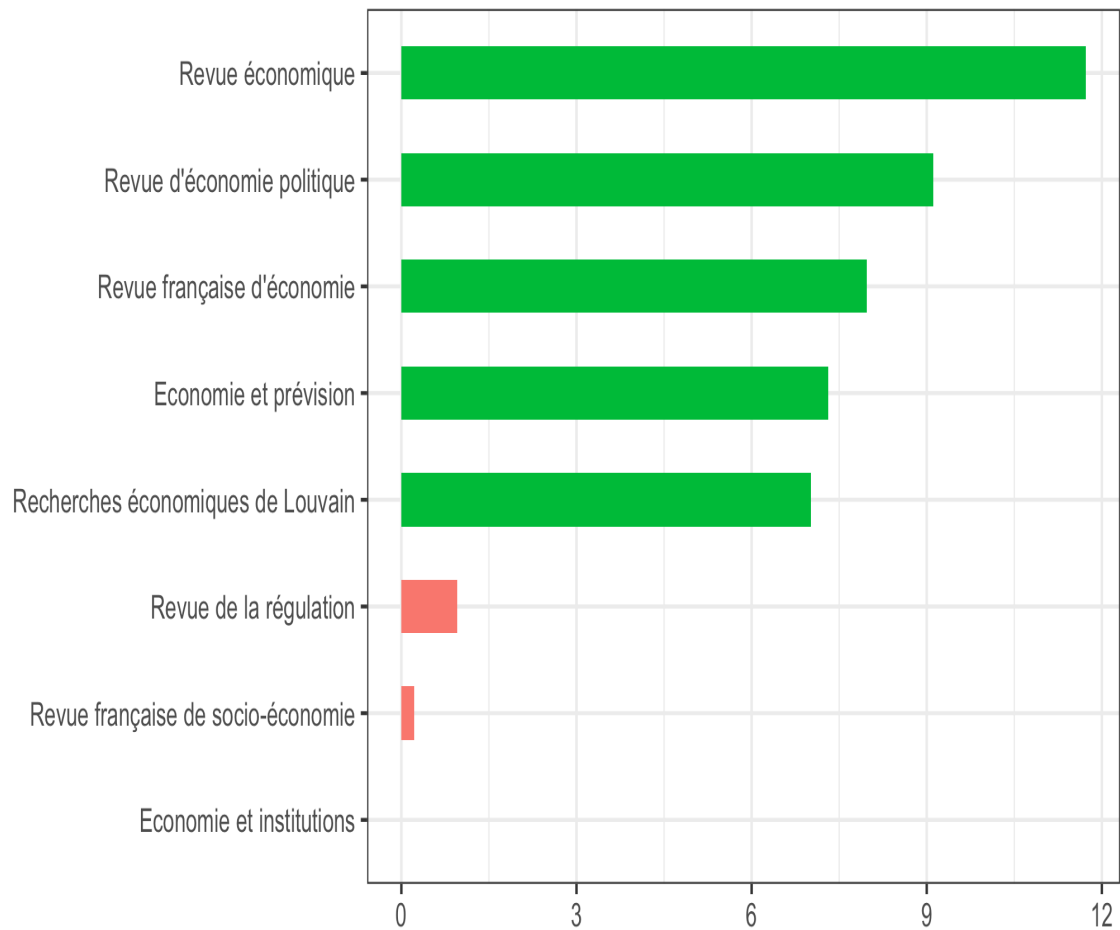

Top mainstream economics journals	French core social sciences journals
<i>American Economic Review</i>	<i>Actes de la recherche en sciences sociales</i>
<i>Econometrica</i>	<i>Sociologie du travail</i>
<i>Journal of Economic Literature</i>	<i>Revue française de sociologie</i>
<i>Journal of Political Economy</i>	<i>Revue française de science politique</i>
<i>Management Science</i>	<i>Geneses</i>
<i>Quarterly Journal of Economics</i>	<i>Politix</i>
<i>Review of Economic Studies</i>	<i>Annales, Histoire, Sciences sociales</i>

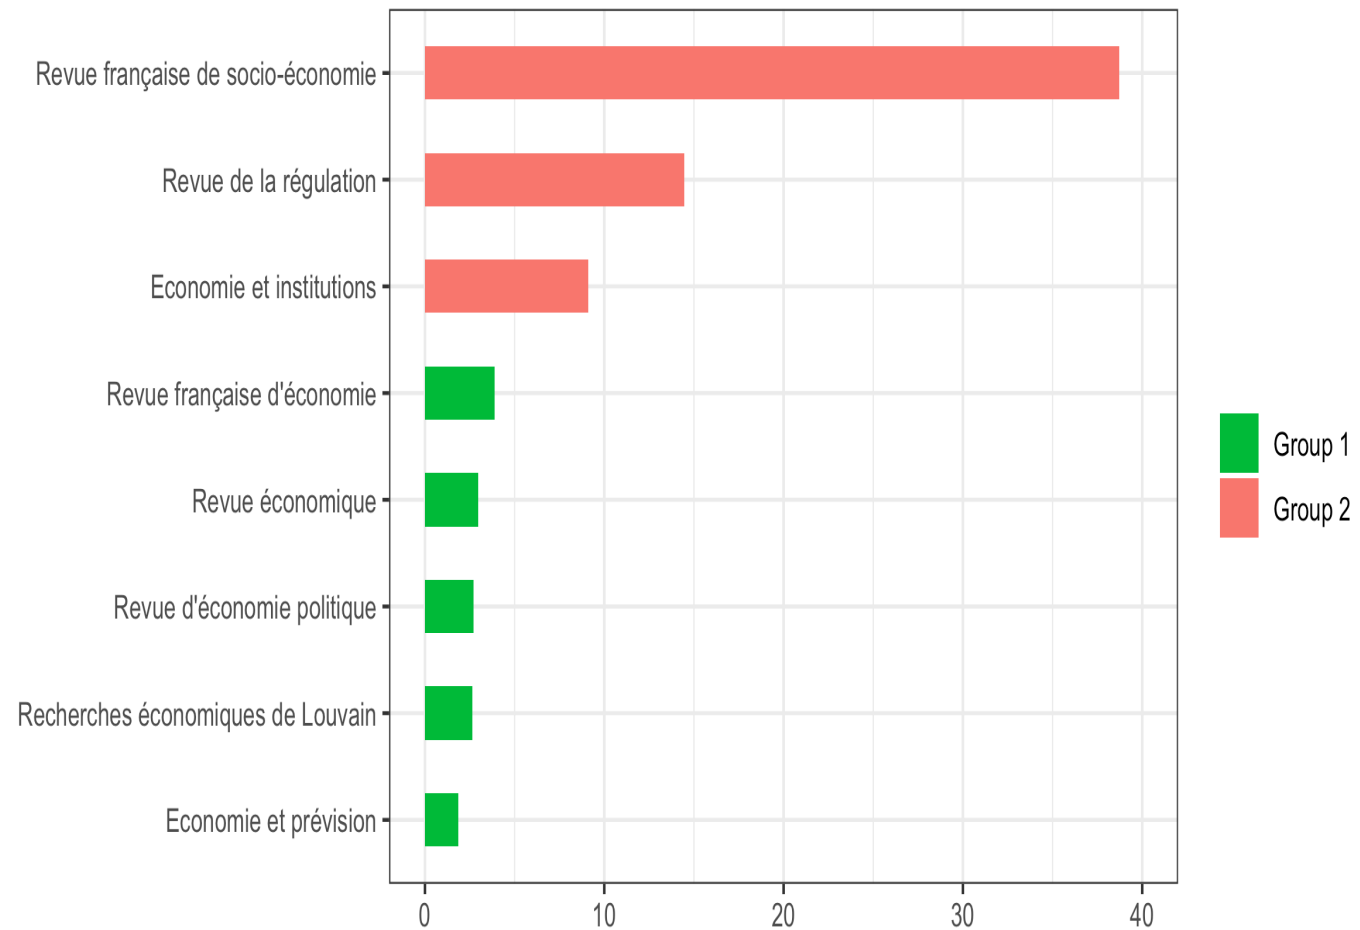

Part of authors who also published in top international mainstream journals (%)

Part of authors who also published in top French social sciences journals (%)

Part of authors who also published in top international mainstream journals (%)

Part of authors who also published in top French social sciences journals (%)

1.3. Evolution of the part of engineers and gender

- **Top French engineering schools :**

Ecole Polytechnique, Ecole Centrale (Paris), Ecole des Mines (Paris), Ecole des Ponts et Chaussées.

- **Gender**

- *Année de la Régulation* (1997 – 2005) vs *Revue de la Régulation* (2007 – 2022)

Editorial Board

1) Authors and editorial board

2) Bibliographical references

2.1. Comparison of the journals cited (2008-2022)

	Citation of the other group	Top mainstream journals	French core social sciences journals
Group 1 (on average per article)	0,01	5,99*	0,10
Group 2 (on average per article)	0,44	0,77	1,21

** On average, Group 1 cites top mainstream journals 5,99 times per article.*

2.2. Most cited authors per journal (2007-2022) – group 1

* Number of articles in which an author is cited at least once

Revue économique	*	Economie et prévision	*	Revue d'économie politique	*	Recherches économiques de Louvain	*	Revue française d'économie	*
Becker G.	68	Heckman J.	33	Acemoglu D.	39	Tirole J.	17	Kahneman D.	29
